

**UNDERSTANDING & MOVING TOWARDS ISO 45001**  
**22-23 MAY 2018 (TUESDAY-WEDNESDAY), 9.00 AM – 5.00 PM**  
**@ Sunway Hotel Seberang Jaya**  
**11, Lebuh Tenggiri Dua, Bandar Seberang Jaya, 13700 Prai, Penang.**

**Introduction:**

ISO 45001, the world's first international standard for occupational health and safety, has been published on 12 March 2018. It provides a framework to increase safety, reduce workplace risks and enhance health and well-being at work. ISO 45001 is applicable to all organizations, regardless of size, industry or nature of business. It adopts a risk-based approach that ensures it is effective and undergoes continual improvement to meet organization's ever-changing context. ISO 45001 can be integrated into an organization's existing management processes and follows the same high-level structure as other ISO management system standards, such as ISO 9001 and ISO 14001. Among the key potential benefits from application of the standard are:

- ✓ Reduction of workplace accidents;
- ✓ Reduced cost of insurance premium;
- ✓ Creation of health and safety culture;
- ✓ Reinforced leadership commitment to proactively improve occupational health and safety performance and many more.....

Join us now to understand how the ISO 45001 applies to your organization and transition from OHSAS 18001 to ISO 45001.

**Course Leader**

**Mr. Robert Rao** graduated from Universiti Malaya and was a DOSH registered competent Occupational Safety and Health Officer. He is also a member of Human Factor & Ergonomic Society of Malaysia. Now he is practicing as full time Safety & Health Consultant specialized in Social Responsibility Compliance, despite being a full time trainer on numerous topics on EHS. He has more than 21 years of experience in the field of Occupational Safety, Health and Environmental Management and also Human Resources. He has worked in manufacturing industry, constructions and health care industry during working years and through his consulting engagements, he had clients from various industries; e.g. hotels, health care, manufacturers on rubber, electronics, petro-chemical, food, metal, paper & etc. Throughout the years, he has accumulated the skills and knowledge, which is more to hands on and has made him very resourceful to his clients.

He has a track record of setting up Safety and Health Management Systems for companies and has conducted numerous trainings on Safety & Health Management, Social Audit Compliance on various industrial standards (e.g. RBA / EICC, BRC, SMETA, ETI, BSCI & etc), Chemical Safety, Emergency Response Planning, Safety & Health Awareness, Forklift Safety, Ergonomics in Manual Handling and so on.

Apart from EHS based trainings, Robert also had conducted several Kaizen based trainings cum improvement projects on TPM, 5S and Lean Supply Chain in Safety. He also had developed his customized module on Safety & Total Productive Maintenance (STPM).

In the past 14 years, as a trainer and consultant, Robert had assisted more than 80 companies in setting up safety and health committees and developed safety and health programs in various sectors. Almost 170 over companies had benefited from his training and consultancy services in various aspects of EHS Management, e.g. legal liaison, practical based trainings, setting up safety management systems & etc.
